SHIELD LINE NITRILE EXAMINATION GLOVES

POWDER FREE • NON-STERILE

Our Nitrile Medical Examination gloves are our most popular non-latex product. Made from a synthetic polymer, these gloves don't contain any protein so they are less likely to cause irritation and allergic reactions. They also provide softness, sensitivity, feel and flexibility. The nitrile material reacts to your body temperature and conforms to the shape of your hand, making them exceptionally snug. ShieldLine Nitrile Examination Gloves are very reliable in these trying times.
